#### HIGHLIGHTS AND SUMMARY OF THE

## First quarter of 2022

On February 28<sup>th</sup> Aurora Eiendom AS completed the acquisition of Buskerud Storsenter from Citycon Norway AS, as seller, at a property valuation of NOK 1.175 million. Buskerud Storsenter has 59 stores and a gross turnover of NOK 1.2 billion. The latest addition to the portfolio fits well into Aurora's strategy to grow by acquiring shopping centers with a leading position in their markets.

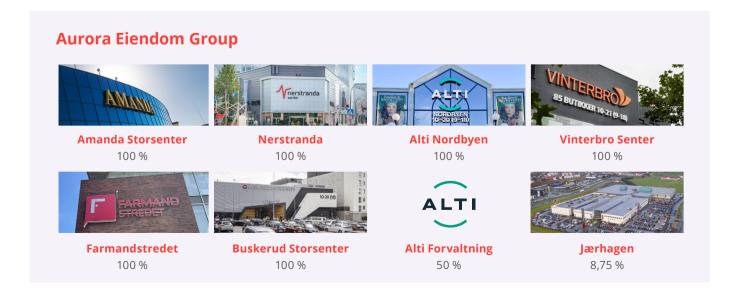

In connection with the acquisition, Aurora Eiendom completed a private placement raising gross proceeds of NOK 400 million. The private placement was fully pre-committed and the subscription price per share was NOK 101.

Aurora's 50%-owned company Alti Forvaltning AS has taken over the management of Buskerud Storsenter. Alti Forvaltning also entered into an agreement to manage Magasinet Kjøpesenter on behalf of Magasinet Drammen Invest AS from March 2022. Consequently, Alti Forvaltning grew its

portfolio of shopping centers under management by 2 to a total of 33 in the quarter.

Gross tenant turnover in Q1-2022 for Aurora's shopping centers, including Buskerud Storsenter (full quarter) was NOK 1.3 billion, which is an increase of 10.4% from Q1-21. Tenant turnover continues to show positive development while footfall is not at pre-pandemic levels so far. We observe that our shopping center visitors complete more errands when visiting a center than before the pandemic – and drop-in visits are not as frequent as before. This trend is seen in car-based centers particularly, while shopping centers based centrally in city centers experience faster increase in footfall.

Leasing activity resulted in an increase in vacancy of 1.2 percentage points, mainly due to two larger office tenants. The occupancy of retail space remained stable in the quarter.

## **LETTER FROM THE CEO**

## **New acquisition**

The shopping center sales performed at good levels in the first quarter of the year, following a strong second half of last year. The sales levels were high above the first quarter of 2021, which was negatively affected by the pandemic, but also above pre-pandemic levels in 2019. Despite increase in sales the footfall is still lagging behind pre-pandemic levels, which makes spend per customer the driver of the sales. With the community returning to normal after Covid-19 we observe that the footfall normalizes more and more for each passing week.

We are pleased to have started the new year with acquiring Buskerud Storsenter in Drammen municipality. A well held and modern shopping center of regional size, with a significant development potential and holding the leading position in its primary market Krokstadelva and Mjøndalen. The acquisition is in line with our growth ambitions and is an excellent complement to our portfolio.

On the negative side, we have general uncertainty in the world today, in a combination of inflation, war in Europe, rising interest rates and volatile markets. This has so far not negatively affected sales in our shopping centers, but we may see the effects of this in the future. Examples are reduced access to products in certain categories of our tenants' product range, increasing common costs for

tenants and reduced purchasing power for customers due to elevated electricity prices and rising long term interest rates. As a counterweight the uncertainty caused by the war adds momentum to already high inflation levels, affecting the yearly adjustment of most of the portfolio's leases.

During the first quarter 13 leases of a total of 4 192 sqm. were extended, equal to 2.9 % of the property portfolio. Simultaneously new leases with a total of 428 sqm. started, and leases with a total of 2 229 sqm. expired or were terminated. This corresponds to an increase in vacancy of 1.2 percentage points. The increase in vacancy mainly relates to two office tenants, while the occupancy of retail space is virtually unchanged. On the way out of the pandemic, we are experiencing a high level of optimism among the retail tenants, and an increased willingness to invest in physical stores. This has resulted in us having several exciting new establishments in the time to come.

The traditional shopping center has typically been introverted and primarily communicated to its own common areas. This is also the case for several of the centers in our portfolio. We are actively working to open the centers up to be more in connection with the city life and activities around us. One of the significant changes we are making in the near future is the establishment of the restaurant Sabrura Sticks & Sushi in the façade of Nerstranda, to open the center towards the adjacent city square.

Another area of focus is to establish a greater offering of health services and medtail tenants, to provide our visitors with the possibility to complete even more errands at one location. We believe that this sector will be an important part of tenant mix going forward and are working on transforming some of our office areas for this purpose. Transforming shopping centers to not only be a place for shopping, but to also become a hub of services.

Jan Juille

Lars Ove Løseth
CEO Aurora Eiendom AS

## Financial developments

#### **Rental income**

Gross rental income in the quarter was NOK 83.1 million compared to NOK 79.4 million in Q4 2021. The increase is mainly due to the acquisition of Buskerud Senter from March 1st.

## Property related operational expenses and administrative expenses

Property related operational expenses consist of maintenance, property tax, leasehold insurance and other direct property cost. These costs amounted to NOK 6.5 million during the first quarter of 2022. For more information see note 4.

The administrative expenses were NOK 4.1 million. This represents the fee paid to Alti Forvaltning AS for managing the six shopping centers in the Aurora portfolio. Alti Forvaltning AS also provides management services to the parent company Aurora Eiendom AS, and the cost of this is included in the management fee. The management fee is calculated as a percentage of gross rental income less owner's share of common costs.

>>

## Other operating income and expenses

Other operating income and expenses consists of income and expenses not related to the properties, such as provision and consultancy fees. These costs amounted to NOK 1.3 million and include legal fees and fees to Euronext Growth and VPS in connection with the transaction completed in O1.

### Net income from property management

Net income from property management was NOK 71.3 million. This is an increase of NOK 3.3 million compared to last quarter (NOK 68.0 million).

### Fair value adjustments of investment properties

The fair value of the investment properties was adjusted by NOK 174.1 million in the quarter. After the acquisition of Buskerud Senter the Group's portfolio now consists of six shopping centers.

### Share of results from associated companies

Aurora Eiendom AS has two associated companies. The management company Alti Forvaltning AS and JHG Invest AS. The Group's share of profit in these companies amounted to NOK 21 253 in the first quarter. During Q1 Aurora amortized NOK 1.3 million in excess book value paid related to their share in Alti Forvaltning AS. This is included in The Group's share of profit.

#### **Financial income**

Financial income is mainly interests on cash and cash

Fair value adjustments on interest rate derivatives Aurora Eiendom AS has ten interest rate derivative contracts. Market value and position of these contracts amounted to NOK 90.2 million by the end of the quarter. This in an increase of NOK 98.9 million. The main reason of the increase is the rise of the NIBOR rates and especially the 10 year forward rates. The average maturity date of the Group's contracts are in late 2031.

## **Financial expenses**

Financial expenses in the quarter amounted to NOK 27.3

million compared to NOK 22.1 million in Q4 2021. The increase is mainly related to the increase in interest rate levels and new bank debt in connection with the acquisition of Buskerud Senter.

#### Summary

Profit before income tax was NOK 44.1 million.

Pre-tax profit, including fair value adjustments of investment properties and interest rate derivatives, was NOK 317.1 million.

#### **Balance sheet**

The Group's assets amounted to NOK 7 090 million. Of this, investment properties amounted to NOK 6 487 million (92 %). Interest bearing debt was NOK 3 379 million (amortized) which is an increase of NOK 725 million since last quarter (NOK 2 654 million).

The equity totaled NOK 3 328 million (47 %).

#### Financing

The Group's debt portfolio consists of long-term debt with Norwegian banks. The remaining term for the debt portfolio is 2.25 years.

The Group's investment properties are pledged as security for the bank loans.

The Group's bank loans incorporate financial covenants related to minimum liquidity, loan-to-value and interest cover ratio. Aurora Eiendom was in compliance with conditions in the credit agreements as of 31.03.2022.

## Cash flow and liquidity

Net cash flow from operating activities was NOK 67.2 million. Net cash flow from investments and financing activities are heavily influenced by the acquisition of Buskerud Senter. Net cash flow from investments was NOK -1 075.4 million while net cash flow from financing activities was NOK 1 124.3 and includes proceeds from a share issue and increased bank debt. This results in a net change in cash and cash equivalents of NOK 116.1 million for the first quarter giving us a cash and cash equivalent at the end of the period of NOK 404.8 million.

## **Notes**

- **ACCOUNTING PRINCIPLES**
- **INVESTMENT PROPERTIES**
- FINANCIAL ASSETS AND FINANCIAL LIABILITIES
- COSTS

## NOTE 1 - ACCOUNTING PRINCIPLES

The financial results for Q1-2022 have been prepared in accordance with IAS 34 Interim Financial Reporting. The accounting principles that have been used are described in the annual report. The interim financial results for Q1-2022 have not been audited.

## **NOTE 2 - INVESTMENT PROPERTY**

	Q1 2022
Opening balance as of 01 January 2022	5 222 900 000
Additions from acquisitions	1 087 114 925
Capital expenditure on investment properties	2 971 442
Net gain / loss on changes in fair value	174 113 633
Value of investment properties	6 487 100 000

Investment property consist of property (land, building or both) held to earn rental income and to increase value of capital. Investment property is recognised at fair value. The fair value model is also applied to the right-of-use-assets (building plots covered by long term leasehold

Investment property is valued at its fair value based on a valuation carried out by the independent appraisers Cushman & Wakefield AS. The value is calculated using the discounted cash flow method.

The fair value represents the amount at which the assets could be exchanged between a knowledgeable, willing buyer and seller in an arm's length transaction at the date of valuation.

### NOTE 2 - INVESTMENT PROPERTY

Main data for valuation

Number of properties

GLA SQM

**Valuation data** 31.03.2022 DCF Valuation method Valuation level Fair Value 6 487 100 000 Weighted average net initial yield (excluding development projects) 5.37 % Net initial yield range 5.02 % - 5.82 % Weighted average fully let yield (excluding development projects) 5.59 % Fully let yield range 5.29 % - 6.34 % Long term operating expense growth 2.00 % 2.00 % Long term gorwth rate in real rental terms

Changes in fair value is recognised in the period to which the profit/loss relates. The latest independent valuation was carried out on 31 of March 2022. Investment properties are not depreciated.

There are no restrictions on when the investment properties can be realised. Revenue from sales must in part be used to repay bank loans.

There are no significant contractual obligations to buy, build or develop investment properties.

The investment properties are pledged as security for the bank loans.

## NOTE 3 - FINANCIAL ASSETS AND FINANCIAL LIABILITIES

### NOTE 3 - FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Liabilities	Q1 2022	Q1 2022
Interest bearing loans and borrowings	Amortised cost	Fair value
Bank Loan 1	3 113 169 748	
Bank Loan 2	266 084 952	
Trade payables	23 492 241	
Financial derivatives		0
Total financial liabilities	3 402 746 941	0

## **Determination of fair value**

The following of the Group's financial instruments are not measured at fair value: cash and cash equivalents, accounts receivables, other current receivables and payables.

Bank loans have been recognised at amortised cost. Per 31.03.2022 the Group did not have financial instruments other than those mentioned above.

The carrying amount of cash and cash equivalents is approximately equal to fair value since these instruments have a short term to maturity. Similarly, the carrying amount of account receivables and other current receivables and payables is approximately equal to fair value since they are short term and entered into on "normal" terms and conditions.

For Fair Value of Investment Properties see note 2 "Investment property".

## 3. EPRA PERFORMANCE MEASURES

B. EPRA NET ASSET VALUE METRICS			
	Q1 2022		
	NRV	NTA	NDV
IFRS Equity	3 328	3 328	3 328
Net Asset Value (NAV) at fair value	3 328	3 328	3 328
Deferred tax properties and financial instr	240	240	
Estimated real tax liability		120	
Net fair value on financial derivatives	-90	-90	
EPRA NAV	3 477	3 358	3 328
Outstanding shares at period end (million)	24.5	24.5	24.5
EPRA NAV per share (NOK)	142	137	136

EPRA Net Reinstatement Value (NRV): the objective of this metric is to highlight the value of net assets on a long termbasis, assuming that no selling of assets takes place.

EPRA Net Tangible Assets (NTA): the calculation assumes entities buy and sell assets, thereby crystallising certain levels of deferred tax liability. Aurora Eiendom has chosen option (iii) in the EPRA BPR Guidelines. In this calculation 50% of the deferred taxes are added back.

EPRA Net Disposal Value (NDV) provides the reader with a scenario where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax, this to illustrate shareholder value in a scenario of orderly sale of all the company's assets.
